- APIs: Google Gemini AI, Stripe, Maps , Google AdMob
- Other: Python Scripting, Unity (Basic)

LANGUAGES

- English (Intermediate)
- Sinhala (Fluent)

PROFILE

Passionate 3rd-year Information and Communication Technology Honours student at the University of Sri Jayewardenepura. With over 2 years of experience in Flutter development, I have successfully deployed multiple applications to the Google Play Store. I am skilled in building full-stack solutions using Node.js and eager to leverage AI and mobile technologies to solve real-world problems.

EDUCATION

Bachelor of ICT (Honours) | 2022 - Present
Faculty of Technology, University of Sri Jayewardenepura
GPA: 3.37/ 4.0

GCE Advanced Level (Tech) | 2021
Results: A A B
Rank : 13th in Ratnapura District

PUBLICATION

Author: A-Level ICT Python Programming
Authored Sri Lanka's 1st comprehensive Python guide for A-Level students, featuring 250+ Q&A and essay solutions to bridge the educational gap.

PROJECTS

PCSO Lottery Results | Live on Play Store
Real-time results app featuring scheduled notifications, a Python-scripted data pipeline for historical data, and AdMob monetization.
Technologies Used: Flutter, Firebase, Python Scripting

Uni GPA Calculator | Live on Play Store
Multi-user academic tool allowing students to calculate semester GPAs with local data persistence via SQLite.
Technologies Used: Flutter, SQLite, AdMob

Adidas E-commerce App
Retail application simulation featuring secure Stripe Payment Gateway integration and cart management.
Technologies Used: Flutter, Stripe API, Firebase

InternLink
Mobile application connecting students with internships featuring resume uploads and employer dashboards.
Technologies Used: Flutter, Firebase Auth, Firestore

Chat Hub (Real-Time Chat)
Full-stack messaging application with Socket.IO for bi-directional communication and a custom Node.js backend.
Technologies Used: Flutter, Node.js, MongoDB, Socket.IO
